ENTERED AT SAN FRANCISCO, CAL. AS SECOND-CLASS MATTER

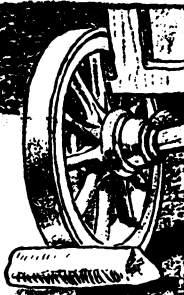

To "Block the Wheel" is to rest the Horse

It is better therapeutics to give Nutrient Material with stimulation than to depend on the latter alone. The body is thus enabled to rest and accumulate new force.

Liquid Peptonoids

"blocks the wheel" by supplying readily assimilable nourishment, tides the patient over an emergency, and promotes more rapid and complete convalescence.

The Arlington Chemical Co.
Yonkers, N. Y.

Laibose

is a food

COMPOSED OF THE SOLIDS OF PURE
WHOLE MILK AND THE ENTIRE DIGESTIBLE
SUBSTANCE OF WHOLE WHEAT—A CON-
CENTRATED FOOD OF HIGH CONTENT OF
ACTUAL DRY NUTRITIVE MATERIAL.

LAIBOSE is a new and original addition to the resources of feeding, designed to meet important and well-recognized requirements, a food of proved value before its general introduction to physicians.

The statement of the analytical composition of Laibose on label and circular enables the physician to direct its use upon the basis of calculable calory and co-efficient of energy of a known definite source and availability.

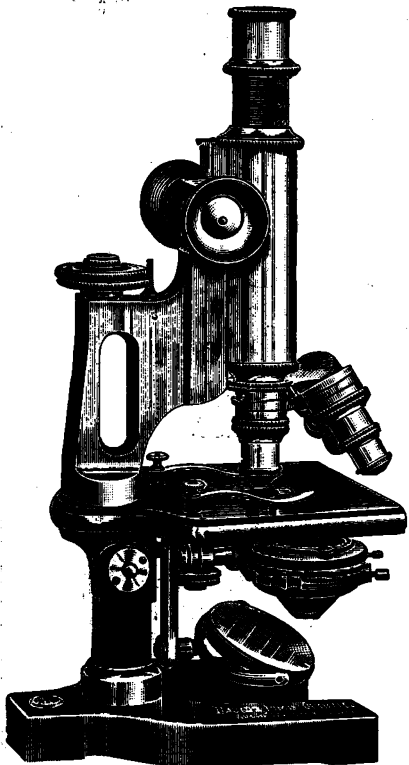

LAIBOSE is prepared for use by the simple addition of water, usually 3 to 4 parts; is very agreeable when taken dry.

FAIRCHILD BROS. & FOSTER

Phone West 6200.

San Francisco.

The Electric Company

Cordially invites you to be their guest at the LOS ANGELES A. M. A. MEETING, June 27, 28, 29 and 30.

Somewhere between seventy-five and one hundred pieces of apparatus will be on exhibition, showing the latest developments in

Electro-Diagnosis and Electro-Therapy

Amongst the newer apparatus to be shown will be the Victor No. 7 High Frequency Outfit.

We predict a most cordial reception for this machine, as it is especially adapted for auto-condensation—the 1911 specific for the reduction of high blood pressure. In addition to this, the Tesla, Oudin, D'Arsonval and ultra-violet lamp currents, and X-Rays sufficient for all therapeutic and light radiographic work, are available.

It is simple in manipulation, economical in maintenance and low in price.

About Diphtheria Antitoxin

THERE ARE TWO KINDS OF ANTITOXIN—

SERUM ANTITOXIN

AND

GLOBULIN ANTITOXIN

SERUM ANTITOXIN is the only Antitoxin recognized by the United States Pharmacopœia and is made to conform in Antitoxic Strength to the U. S. Government Official Standard Unit.

SERUM ANTITOXIN represents, besides the Antitoxic Globulins, all the Immunizing and Bactericidal properties of Normal Horse Serum.

SERUM QUALITY is indicated by its **Degree of Concentration**; i. e., the Number of Antitoxic Units contained in a Given Quantity.

SERUM CONCENTRATION is attainable only in one way—By Increasing the Immunizing Productivity of the Horse.

HIGH-GRADE SERUM is more costly and more difficult to Produce than is Low-Grade Serum or "Globulin" Antitoxin.

** ** ** ** **

GLOBULIN CONCENTRATION is an Entirely Different matter from Serum Concentration.

GLOBULIN ANTITOXIN may readily be "concentrated" even to dryness, but **Rapidity of Absorption** is Retarded by Over-Concentration.

GLOBULIN ANTITOXIN production is more in the nature of a Chemical, than a Physiological or Biological process.

Natural Climatic Advantages Enable THE CUTTER LABORATORY

BERKELEY, CALIFORNIA

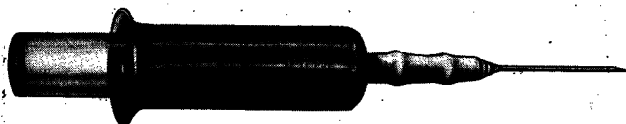

TO PRODUCE

The Highest Quality Serum Antidiphthericum, U. S. P.

And at a Saving to the Patient of from One-Half to Two Dollars per Package

While we also produce **GLOBULIN** Antitoxin in Syringe Containers, ranging from 1000 to 10,000 Units, we invariably recommend the Natural Serum.

OUR NEW
SYRINGE

FLEXIBLE NEEDLE
CONNECTION

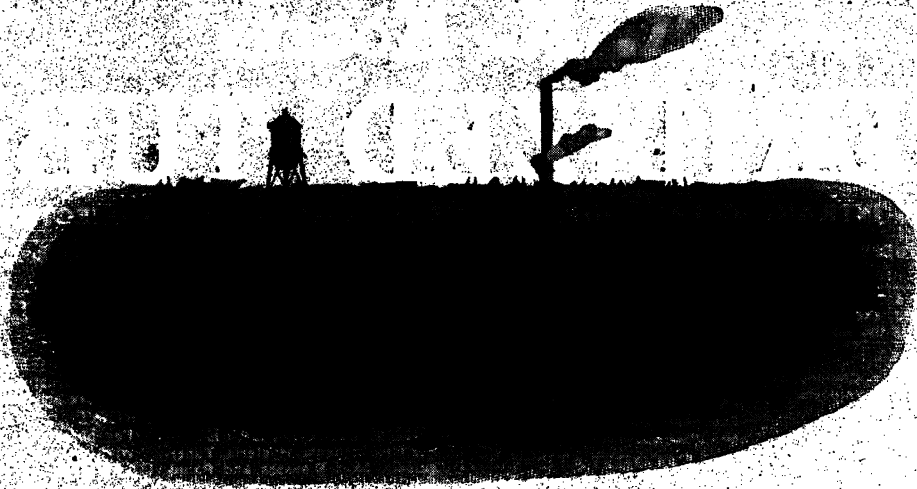

The Size of the Package is determined by the Style of Syringe and is no criterion of the Serum Concentration. Ours is a Ready-for-Use Syringe.

SPECIFY CUTTER'S!

UNITED STATES GOVERNMENT LICENSE NO. 8

A. M. A. Principles of Ethics.

"It is equally derogatory to professional character for physicians to dispense or promote the use of secret remedies."

The Very Epitome of Modern Efficiency

The making of perfect surgical dressings is one of the rarest arts. We have spent twenty years in the learning.

Proficiency comes only through countless experiments, and through searching the world for ideas. And it never comes then unless one aims at ideals.

Utter perfection involves the solving of a myriad problems, of which asepsis is the most important.

It has required the erection of this model plant, to which a thousand surgeons contributed ideas.

It has required the invention of vacuum sterilizers.

It has required, for the final processes, a white enameled room, where every employee is governed by surgical rules.

It has taken two decades to accomplish all the perfections you find in every B & B product.

Every product which bears the B & B label represents the best that men know. It is made as you want it made. You will insist on this label when you once prove the facts.

Sample sent on request.

Bauer & Black

Chicago and New York

Makers of Surgical Dressings, Absorbent Cotton,
Adhesive Plaster, O-P-C suspensories, etc.

B & B Corset Dressing

Zinc-Oxide Adhesive Plaster fitted with short fast bands and lined with tape. Prevents displacement of a dressing and exposure of the wound. It can be used where bandaging is impracticable.

A. M. A. Principles of Ethics.

"It is equally derogatory to professional character for physicians to dispense or promote the use of secret remedies."

R. R. ROGERS STERILIZED TUBES

FOR INTRAMUSCULAR, INTRAVENOUS and SUBCUTANEOUS INJECTION

12 Sterilized Tubes of a given preparation in each box, and price (to physician only) is \$1.50 per box, through your Druggist or from us, postpaid, cash with order.

You give a definite dose: In each tube, you know the patient does not "forget" to take it, it never disturbs digestion, it cannot be eliminated without first being absorbed, the results are visibly rapid to both you and your patient, you see your patient frequently and thus help yourself and your patient. Injection is the most common form of treatment in France, Germany and Italy.

MER-CAC-O-DOL
(Mercury Cacodylate Compound)

"It is equally derogatory to professional character for physicians to dispense or promote the use of secret remedies."

"She Who Nurses One Must Nourish Two"

Prolonged lactation usually reduces the power of the mother to provide adequate and proper nourishment for her infant.

The value of a liquid extract of Malt and Hops (when properly prepared) to increase not only the amount of milk but especially the fat content, is universally recognized.

But it **must be** real Extract of Malt and Hops, not a cheap dark beer, masquerading as such.

It should be

ANHEUSER-BUSCH'S
Malt-Nutrine
TRADE MARK

which is the STANDARD MEDICINAL MALT preparation of its class. **Malt Nutrine** is a food-tonic—not a beverage.

It is the product of skill and experience in the chemistry of brewing.

Malt Nutrine is intended for Physicians' Prescriptions.

It stimulates appetite, improves digestion, nourishes the tissues, and increases the quantity and quality of milk.

**Pronounced by the U. S. Revenue Department a
PURE MALT PRODUCT
and not an Alcoholic Beverage**

Sold by all druggists

Anheuser-Busch

Saint Louis

Visitors to St. Louis are cordially invited to inspect our plant

OBSERVE

That the indications for GARDNER'S SYRUP
AMMONIUM HYPOPHOSPHITE

are.

Laryngitis, Pharyngitis, Bronchitis and Minor Coughs.

That you will not have to prescribe opiates or anodynes
in order to obtain the desired action.

That it is an active stimulating expectorant.

NOTE

That it will not be dispensed unless you specify
"GARDNER".

REMEMBER

That it is made from chemically pure Ammonium
Hypophosphite, sixteen grains to the fluid ounce.

That it is palatable.

Samples and literature will be gladly sent you, upon
request.

Firm of R. W. GARDNER,

P. O. Box 1525,

New York City.

The Wallace Adjustable Hospital Bed

AN IDEAL BED, PRACTICAL, EFFICIENT AND DURABLE

Every position required in surgery easily and quickly obtained with our ingenious appliance. It meets every requirement in handling the sick; saves 75 per cent. of the labor in nursing; prevents bed sores; solves the problem of drainage in pelvic and abdominal surgery. Obstetrical cases and fractures are easily handled; no danger of displacement after fracture is once set, as the middle section lowers for use of bed pan and douche; no lifting or moving necessary. Simplifies surgical dressings, bathing and change of bed linen. A valuable addition to every Physician's equipment.

THE WALLACE BED soon pays for itself in the increased charges obtained for rent of rooms furnished with it. Many Hospitals and Sanitariums are not only making a reputation for efficiency and up-to-date-ness by using our bed, but are making big money out of it. WHY NOT YOU?

THE WALLACE BED is made entirely of metal; equipped with best box type, oil tempered steel springs, and high grade soft felt mattress. We guarantee it to be perfect in every detail of construction. Finished in Japan and white enamel. We have a large stock always on hand for immediate shipment.

Special Discounts to Hospitals and Physicians. Write to-day for Illustrated Booklet with Prices.

The pleasantest and most efficacious mode of administering **LITHIUM** is in the form of a Potable Water.

Dr. Enno Sander's GARROD SPA LITHIA WATER

contains more Lithium than any other water on the market and in the most desirable combination. It is manufactured from pure chemicals and pure distilled water, heavily charged with pure carbonic acid gas. Its formula (originally suggested to Dr. Enno Sander by Sir A. B. Garrod, M. D.) is as follows:

LITHIUM BICARBONATE.....	GRS. XIV
MAGNESIUM BICARBONATE.....	GRS. X
POTASSIUM BICARBONATE.....	GRS. XVI
SODIUM CHLORIDE.....	GRS. X
CARBONATED WATER.....	OZ. XVJ

No natural water can possibly dissolve as much Lithium as this, nor in such an effective medicinal state.

It Is Sold as Follows:

"Still" Garrod Spa, in Half-Gallon Bottles. Price 60 cents each or \$6.00 a case of one dozen bottles.

"Sparkling" Garrod Spa, in Pint Bottles. Price \$2.00 a dozen or \$7.00 a case of 50 bottles.

The "Sparkling" Garrod Spa is well charged with gas, and is a pleasant beverage, used by many as a table water. This is the kind most used.

We Are Putting Out a Line of Elixirs

That Cannot Be Beaten.

For therapeutic efficiency, for palatability, for appearance, for stability, our medicinal elixirs are as near perfection as the art of pharmacy can render them.

We would not have presumed to make this statement three years ago—and three years ago we were manufacturing and marketing a line of elixirs that we honestly believed to be second to none that the world's markets then offered.

"As good as the best," though, was not good enough. We had some rigid ideals. We would not rest until we had attained them.

There was never any doubt of the medicinal efficiency of any single elixir on our list. The improvements that we sought to effect were in flavor—where flavor could be bettered; in physical appearance—where appearance was not all that could be desired; in stability—where stability was in question.

We devoted three solid years to the perfection of the line, making tests innumerable—tests involving such problems as the increase or decrease of the alcoholic content; the effect of different wines upon stability; the sugar proportion; the advantage or disadvantage of acid; the availability of various coloring materials, aging and refining agents, essential oils and perfumes—making up hundreds of experimental lots which were kept under observation for long periods of time. Today we have a line of elixirs that we believe to be unequaled by those of any other manufacturer in the world.

Our elixirs are true to label. They are rigidly standardized. They are pleasing to eye and palate. They are stable. *Specify them on your orders!*

CONFIRMING OUR STATEMENTS

THE LANCET (London), February 11, 1911, p. 383, says:

"Suprarenalin Solution

(Armour & Company, Ltd., Atlantic House, Holborn Viaduct, London, E. C.)

The claims made in regard to the purity of this solution of the active principle of the suprarenal capsule are, according to the examination we made, correct. Suprarenalin Solution is prepared from an ash-free active crystalline principle of the suprarenal substance. It is simply the active principle contained in normal saline solution, and is free from objectionable additions."

As the only article of the sort that IS free from "objectionable additions" Suprarenalin Solution is recommended to the ophthalmologist, laryngologist and rhinologist, and to all surgeons, physicians and dentists that desire pure drugs.

Suprarenalin Solution 1:1000, 1 oz. bottles

Suprarenalin Inhalant 1:1000, 1 oz. bottles

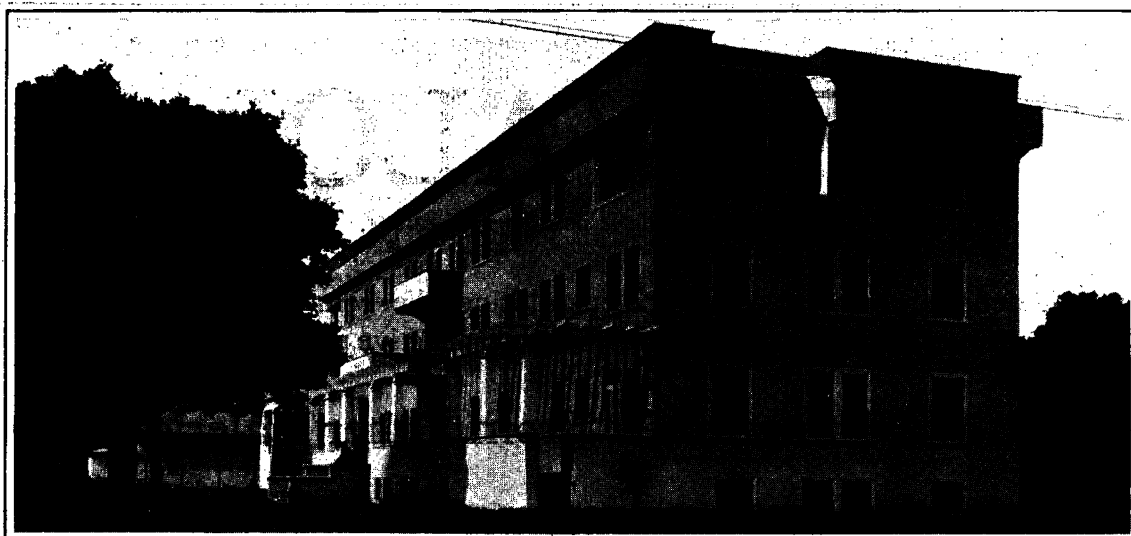

Suprarenalin Ointment 1:1000, in tubes

Suprarenalin Triturates, in vials of 20. Each triturate makes
15 minims 1:1000 solution

WANTED

Back numbers of the California State Journal of Medicine, January and February, 1911, also the issues for the years 1909 and 1910; kindly write the Holden Drug Company, Stockton, California, stating the price asked. Do not send any journals until the price is understood and instructions how to ship are received.

Towels of Wool

Are towels made of wool? If not, how can you expect woolen underwear to wipe off your perspiration? As a matter of fact, woolen undergarments leave the skin clammy and cold. They invite chills and lay the foundation for bronchitis, pneumonia and rheumatism.

Dr. Deimel Linen-Mesh acts like a soft linen towel, it keeps the skin dry and comfortable; and as the chill of ordinary pure linen has been removed, the Dr. Deimel Underwear is, in addition, the most protective garment known.

Mater Misericordiæ Hospital

Sacramento, California

CONDUCTED BY SISTERS OF MERCY

The best equipped hospital in Northern California, numbering among its patrons the most eminent medical and surgical talent in the State.

The hospital has a large class of nurses in training; has Sisters in charge in each department, and a Resident Physician to watch over and superintend the care of the patients. During the past year a new wing, consisting of thirty-five rooms, has been added, and many improvements have been made, such as the establishing of a maternity ward at a flat rate of \$25 per week.

The Surgery, located in a separate building, has been entirely remodeled—tiles being substituted for concrete. Four new rooms have been built, and the completed structure now boasts of three commodious and independent operating rooms.

The course of lectures for the Training Class is given by the following doctors: Dr. W. A. Briggs, Dr. G. E. Simmons, Dr. J. H. Parkinson, Dr. Henderson, Dr. G. L. Stevenson, Dr. J. W. James, Dr. E. C. Turner, Dr. G. L. Simmons, Dr. T. J. Cox, Dr. G. W. Dufficy, Dr. Chas. McKee and the Resident Physician, Dr. F. E. Shaw.

Lane Hospital Announcement

Lane Hospital has recently been enlarged, renovated, and improved. A story has been added, increasing the capacity to one hundred and seventy-five beds. The operating rooms have been remodeled and a new top-lighted and thoroughly equipped laparotomy room added. The new arrangements increase the convenience and double the capacity of the surgical department, while the same high standard of efficiency in the operating room service will be maintained as in the past.

A Maternity Department has been established, consisting of a number of well-lighted, isolated rooms, in close relation to a completely equipped delivery room.

Two Children's Wards have been opened, and particular attention will be paid to the care and nursing of children.

The Eye and Ear Department has been provided with special wards, special nurses and separate treatment rooms.

The X-Ray Department is located in the new portion of the hospital and has been provided with every convenience for examination, treatment and laboratory work. An entirely new set of the latest and most efficient apparatus has been installed.

Roof Garden. A special feature of the recent addition is a well-protected roof garden where convalescents may enjoy fresh air and sunlight and where patients may be given the benefit of outdoor treatment.

While the Faculty of Cooper Medical College acts as a medical and surgical staff to the hospital, the privileges of the institution are freely open to all regular physicians in good standing. Physicians having patients in Lane Hospital are assured of every professional courtesy.

Communications may be addressed to the resident physician.

AN INSTITUTION OFFERING PHYSICIANS all the advantages of a modern, high-class sanitarium with certain **Special Advantages**, peculiar to this institution.

MUDLAVIA

KRAMER, INDIANA

A DISTINCT BOON TO PHYSICIANS as well as their patients in lightening the responsibility, and relieving you of a class of work not full of promise in private practice.

Attention is directed to the following noteworthy features at MUDLAVIA

1. Thorough Elimination. By natural, gentle processes through channels best able to bear it, by means of the Mudlavia Bath.

2. Rest. Buildings and grounds ideal in appointments for this purpose. Nowhere can be found better facilities for combining a vacation period with a highly efficient course of treatment than at Mudlavia.

3. Social Status. Objectionable classes excluded—moral tone high.

4. Location. Readily accessible from all points in Central West by direct North and South, East and West lines to Attica, Ind., our railroad station.

5. Climatic Advantages. By reason of its fortunate freedom from extremes of weather it is maintained throughout the year.

6. Medical Supervision. Staff of regular physicians trained to this work and insuring individual attention.

7. Ethical Relations. Strictly ethical; co-operation in all referred cases.

8. Diseases Treated. The rheumatic class, the chronic-sub-normals—needing elimination; Gout, Neuritis (Sciatic and other forms), Eczema, Psoriasis, mild Nephritis and Diabetes. It prepares patients for a more ready

response to your subsequent home treatment.

9. A Physician's Retreat. There is always a quota of reputable members of the profession here for rest or the baths.
